

ScienceClubz at BCS Introduces Vet School

From
September
A VET topic will
be included
once per term!

How It Works

- One workshop in each term is devoted to a veterinary topic
- Children get to learn **how science helps vets to do their job!**
 - Biology
 - Chemistry
 - Physics
 - They also learn the importance of innovation to enable vets to treat new and existing animal health problems
- Timings: 2nd week of ScienceClubz workshops in the term

Content has been developed
in conjunction with our
resident vet,
Jo Wicksteed MA VetMB MRCVS!

Vet School Workshops

- all Part of Science Club's Regular Schedule

Term 1: 13/14/15/16/17 Sept 2016
